

Dear Parents and Carers,

I hope that you and your families are safe and well.

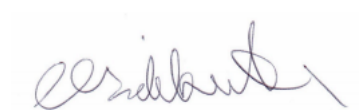

On Friday I received a letter from Public Health regarding the wearing of face masks. The letter is included in this information pack along with advice on how to wear a face mask.

Following on from the guidance provided in the letter, your child will be expected to bring a face mask with them when returning to school next week.

The mask must be plain with no design, words or image on it.

From next week, our children and staff are expected to wear a mask when moving around the building and when in communal areas. They are not expected to wear a mask when they are in class or when they are eating/ drinking in communal areas.

Please read the information from Public Health and contact school with any questions.
